SHELL TYPES

Fiber Glass Shell

Power —
Overall Durability —
Bright and instant response.
Flexibility in use
Suitable for all types of music
Totally unaffected by humidity.
The drum manufacturers most modern shell material. Known and admired by drummers throughout the world for its many qualities.

Maple Shell

Made of selected maple — wide variety in sound, sensitive, powerful, yet retaining the warmth and mellowness of a traditional wood shell.
Shell interior finished with clear lacquer polish.

Dynamic Wood Shell

(Birch)
A nine layer ply-wood body finish by the heat compression method and a birch interior surface produces its dynamic and mellow sound

THE VARI SET SYSTEM

A system totally adaptable to the many different set-ups demanded by the modern drummer. It enables the player to use many combinations of tom-toms and cymbals to produce the wide range of sounds required today. 707-2 adaptor is the key to the entire system, providing each drummer with an unlimited choice of set-ups.

● **717T**
A tom-tom holder designed for the professional drummer — Permit multi-angle adjustment, while retaining total stability. Single screw tension ensures no slip during use. Each arm has two lock-stop memory clips for instant reset of each individual tom-tom. Can also be combined with Vari Set System for even greater flexibility.

● **727T**
A new standard in tom-tom holders. Capable of holding any Pearl Professional Tom-Tom as pipe diameter is the same. Wide range of usage — The Vari Set System can be used. This holder also features Pearl own lock-stop memory clips. It's hard to believe this is the standard model.

Set-up with two adaptors, 725 Cymbal Holder, and 717 Twin-Tom Holder.

707-2 Adaptor is the key to the entire system.

Triple Tom can be set by 707-2 adaptor as well.

717S, 717H and 727 Tom Holders mounted on the Bass Drum.

Combination of Toms & Holders on the 989 Twin Tom Stand.

SPRING CASE

Spring installed inside, with the adjusting knob on top within easy reach, allowing instant control of the spring tension.

STRAP

Long-life durable strap with nylon core prevents stretching and tearing while still retaining natural flexibility.

BEATER BALL

Attached to a newly developed black shaft, strong high tensile steel gives immense strength and power and ensures beater strikes at the correct angle.

BEATER ANGLE ADJUSTMENT

Allows for adjustment of beater to individual angle required by each drummer. Does not restrict use to one conventional angle.

FOOT PLATE ADJUSTMENT

Adjustment foot plate to choice of three levels.

ONE TOUCH LOCK SYSTEM

Instant setting and re-setting on bass-drum hoop in one easy lever movement.
