THE BEST WARRANTY IN THE INDUSTRY! *

COMMITTED TO THE HIGHEST LEVEL OF CUSTOMER SATISFACTION.

The Pearl Lifetime Warranty is a statement of confidence to our customers to the reliability of Pearl products. Pearl drums, stands and hardware are designed and manufactured to the highest standards in quality, style, appearance and playing performance. This lifetime warranty reflects a tradition of excellence and a commitment to superior engineering and craftsmanship dedicated to you, the drummer. The Pearl lifetime warranty is our pledge to you that we will proudly stand behind our product for as long as you own it. *Buy it once, play it for life.*

- Drum Set/Concert wood and metal shells for the Lifetime of the Original Owner.
- Foot pedals, hi-hat stands, cymbals stands, boom cymbal stands, snare drum stands, throne bases, floor-standing tom stands, floor-standing cymbal/tom stands, concert stands, racks and rack accessories, cymbal holders and multi-clamps for the Lifetime of the Original Owner. Some exceptions apply.
- Drum Set claws, tension rods, swivel nuts, spurs, tom brackets, tom holders, strainers, and nuts and bolts for the Lifetime of the Original Owner.
- Rotationally molded cases for the Lifetime of the Original Owner.
- The LIFETIME WARRANTY applies to the aforementioned Pearl products purchased from June 15, 2009.
- * This warranty is valid only in the United States and excludes the Crystal Beat and Roadshow Series.

THE CHOICE IS YOURS.

PEARL HAS BEEN CRAFTING PERCUSSION INSTRUMENTS DESIGNED TO FIT THE NEEDS OF EVERY DRUMMER SINCE 1946. NO MATTER WHERE THE PLAYING ROAD TAKES YOU, PEARL HAS THE RIGHT DRUM SET OPTIONS TO MAKE YOUR VOICE HEARD AT EVERY STEP ALONG THE WAY.

MASTERWORKS

CUSTOM CRAFTSMANSHIP FOR THE MASTER PERCUSSIONIST.

The dream destination for the Pro drummer that wants true control. Every element of the kit's sound, look, and feel is player-selected from a limitless palette of custom options. Hand-crafted to heirloom perfection for the ultimate custom drum statement.

PAGES 6 - 13

REFERENCE

SONICALLY SELECT DRUM PERFORMANCE.

The best custom options from the Masterworks realm, preselected to draw the best in sound and playability from each drum. Optimum pro performance for high-volume, high-capacity playing presence.

PAGES 14 - 15

WOOD-FIBERGLASS

VINTAGE HYBRID, MODERN PERFORMANCE.

Saluting the sound that defined an era, a true Pearl original returns with our premium 7-ply Kapur shell, fused with a layer of hand-applied Fiberglass. The result is a unique combination of warmth, projection, and focused decay.

PAGES 30 - 31

CRYSTAL BEAT

THE ORIGINAL SEAMLESS ACRYLIC DRUM SHELL.

Originally introduced in 1973, Crystal Beat returns with unparalleled tonal and visual clarity and punch for a new breed of power players. Precision-molded in a variety of available sizes and finishes for an unmistakable drumming signature.

PAGES 32 - 33

REFERENCE PURE

UNRESTRICTED TONAL RESPONSE.

The sonically-select Reference formula in a thin drum shell format. Unrestricted tone for close-field articulation with a warm, resonant vibe. Ideal for controlled environments and concert settings where extended tuning range is paramount.

PAGES 16 - 17

MASTERS MAPLE RESERVE

A CLASSIC FORMULA FOR SONIC GREATNESS.

Combining a thin 4-ply Maple shell with 4-ply re-rings delivers an essential tonal combination of rich lows and wide-open resonance. Lively sonic character and a natural choice for the most discerning musical pallet.

PAGES 24 - 25

DECADE MAPLE

A DRUM KIT 10 YEARS IN THE MAKING.

Pearl's 70 years of drum craftsmanship culminate with the kit you're ready to step up to. With 5.4mm Maple shells, pro-level features, and gorgeous lacquer finishes, Decade elevates your performance at a price that was previously impossible.

PAGES 34 - 35

EXPORT / EXPORT LACQUER

THE LEGENDS OF TOMORROW, PLAY EXPORT TODAY.

The kit that spawned a thousand drumming legends is back for a new generation. Available in wrapped or lacquer finishes, Pearl's Export is built better than ever to give a strong beginning to the student drummer's lifetime of play.

PAGES 36 - 37

MASTERS MAPLE COMPLETE

THE MASTERS SHELL COMES FULL CIRCLE.

The road-proven combination of warmth, power, and tonal purity that made Masters a legend shines forward. Pearl's new EvenPly 6-layer premium Maple shell, 2.3mm Superhoops, and an improved price tag make Masters a must for the touring pro.

PAGES 26 - 27

SESSION STUDIO CLASSIC

THE ESSENTIAL SOUND OF STUDIO GROOVE.

Classic, articulate, controlled. The punchy attack and tonal clarity of Session series' influential sound is here to stay with Kapur/Birch hybrid shells, traditional sizes, and a host of premium lacquer finishes.

PAGES 28 - 29

MIDTOWN

BIG GIG, SMALL RIG, HUGE SOUND.

For full-size play in a smaller footprint, this ultra-portable, complete shell pack lets the gigging drummer on the move sculpt rich, powerful grooves. Essential gear for the metropolitan player.

PAGE 38

ROADSHOW

IT'S YOUR TIME TO PLAY. START THE RIGHT WAY!

The rhythm is in you; the right gear is essential for setting it free. The Roadshow complete drum set package comes with everything needed (drums/hardware/cymbals/extras) to start your rhythmic journey to the big time.

PAGE 39

COMPLETELY CUSTOM. TOTALLY HANDMADE.

THE MASTERWORKS PHILOSOPHY:
TRUE CHOICE FOR THE PRO DRUMMER SINCE 1999.

Pearl's Masterworks offers more custom choices for the pro drummer than any other drum company. Every element of the kit's sound, look, and feel is player-selected and handcrafted to heirloom perfection for the ultimate custom drum statement.

Sculpt the sound of your kit with a custom selection of shell plies from four premium wood types, or choose from one of Pearl's five pre-configured Sonic-Select Shell Recipes (detailed on pages 8-13). Virtually every shell diameter is available in customizable depths, thicknesses, and edges. Pearl's expanded shell hardware options and finishes further sculpt each drum's feel and performance.

Finally, our proprietary 31-step lacquer finish process is applied to each drum to your exacting specifications. Once your finish is approved, Pearl will deliver your custom crafted drum set in 90 days.

If you can imagine it, Pearl can build it.

SHELL MATERIALS

MAPLE

MAPLE
The perfect blend of tone, attack, and body.

- North American hardwood with rich, even grain.
- Ideal for general purpose applications.
- Equal tonal amounts of highs, mids, and lows

BIRCH

BIRCH
The precision choice for high-volume cut and power.

- Premium "white" wood with marbled, subdued grain.
- Excellent for stage and studio w/ boosted highs and mellow mids.
- "Built-in EQ" delivers articulate stroke with shorter, even decay.

MAHOGANY

AFRICAN MAHOGANY
Deep, powerful punch with dark, elegant tone.

- Porous African wood with rich, dark texture and grain.
- Boosted bottom-end perfect for controlled rooms/studios.
- Beautifully smooth midrange sustain with high-end roll-off.

GUMWOOD

GUMWOOD
Explosive projection and increased volume.

- A medium-density wood that produces explosive tone.
- Ideal as a core-ply; enhances tonal character in surrounding plies.
- Projects w/substance and power as an interior/tone-ply.

COMPOSITE

COMPOSITE SHELL
The Ultimate Hybrid.

- Combining wood types blends each material's sonic character.
- Cross-laminated two-ply panels are hand-selected for proper density, grain consistency, and color.

CUSTOM SHELL INTERIORS

Expand the Tonal Spectrum.

- *Artisan Veneers* - Any of Pearl's exotic exterior hardwoods can be added to the inner ply.
- *Fiberglass* - A thin interior layer of hand-applied fiberglass adds volume and accelerates decay.
- *Carbonply* - Fusing a thin interior layer of carbon fiber maximizes high-frequency response.

BEARING EDGE

Nothing influences a drum's overall response more than the bearing edge. Masterworks offers a choice of five sonically-tested edges, each of which can be configured individually by drum, application, and shell side.

OUTER 45°

Provides the perfect blend of attack and warmth.

OUTER 60°

Pulls brighter overtones from darker shells and increases punch.

INNER 45°

Edge apex focused to the inner shell plies for controlled tonal response.

ROUNDED 45°

Greater head-to-shell contact boosts mid to high frequencies.

FULLY ROUNDED

Boosts mid-to-low range response and reduces decay.

ULTIMATE CUSTOM

YOU'VE ARRIVED.
IT'S TIME TO TELL THE WORLD.

Masterworks is your crowning achievement; a timeless heirloom statement crafted to elevate the custom drum concept to a whole new level.

MASTERWORKS ULTIMATE CUSTOM MAHOGANY KIT IN SATIN CRANBERRY TAMO W/ NATURAL PINSTRIPE AND NICKEL HARDWARE

SHELL THICKNESS PRECISION TONAL CONTROL

THIN (4-ply, 5mm w/ 4-ply Reinforcement Rings)
Responsive tonal sustain for the near-field environment.

MEDIUM (6-ply, 7.5mm)
Ideal for general purpose play. Excellent projection with full-bodied tonality.

THICK (8-ply, 10mm and 10-ply, 12.5mm)
Maximum cut and projection with subdued sustain.

SUPERIOR SHELL TECHNOLOGY:
ASSURES MANUFACTURING EXCELLENCE. EVERY TIME.

HARDWARE FINISH & LUG OPTIONS

Custom configure a choice of five different plating options to any one of our precision tuning lugs, hoops, and drum hardware.

CHROME
(Shown w/ CL100 Lug)

NICKEL
(Shown w/ STL100 Lug)

GOLD
(Shown w/ STL150 Lug)

BLACK CHROME
(Shown w/ BRL100 Lug)

BLACK NICKEL
(Shown w/ STL150 Lug)

Pearl's proprietary Superior Shell Technology begins with select woods chosen for their unique acoustic attributes. Each is milled to precise thickness with overlapping scarf joint seams, and saturated with Pearl's exclusive "AcoustiGlue"; creating optimum resonance by drying to the exact consistency of the wood. Finally, the plies are cross-laminated in high-temperature molds at 1000 PSI of hydraulic pressure, producing superior tone and extreme strength.

FINISHES

Imagine, Design, Play.

Configure your perfect visual statement from a virtually unlimited palette of customized finish options; from Gloss, Satin, and Sparkle Lacquers in Solid or Burst/Fade finishes, to Pinstripping, Banding, and even Custom Graphics. Our custom shop imaging and finishing team can make it a reality over your choice of hand-matched exteriors or one of our seven Artisan Exotic veneers.

BUBINGA

EUCALYPTUS

CARBONPLY

THE FULL SPECTRUM OF MASTERWORKS CHOICE IN SHARP FOCUS

Drawing from two years of research and artist testing, Pearl presents Sonic-Select Shell Recipes: five distinct, extensively tested drum formulas each fine-tuned for their given performance application.

By filtering the nearly-endless array of custom options in the Masterworks spectrum down to specific shell, edge, and hardware fusions, each Recipe creates a truly unique sonic signature; clearly defining the Masterworks custom drum experience for the discerning professional.

STUDIO (pg. 9)

A hard/soft layered wood combination in a thin 6-ply shell, crafted to fully capture every nuance of the drummer's performance with tonal clarity.

HERITAGE (pg. 10)

Recalls a classic age in drum-making by balancing the power of Maple with the warmth of Mahogany for enhanced lows and fat top-end slap.

URBAN (pg. 11)

This totally unique thin-shell combination of Birch, Gumwood, and Maple sculpts a vibrant, powerful voice for the metropolitan drummer.

STADIUM (pg. 12-13)

Brings the classic elements of Pearl's genre-defining CZX shell into the modern playing field, focusing on volume and power for the touring stage.

MODERN DRY (pg. 12-13)

Represents new ground in Masterworks; focusing on quick, top heavy articulation with controlled low end for today's multifaceted beat creator.

MASTERWORKS STUDIO KIT IN RED SATIN OVER TAMO W/ NATURAL HOOPS

SOUND

Speaks with pure midrange projection and unique bottom-end. Its articulate, clean tonality commands a vintage flavor with modern flair. Higher tunings also make it exceptional for the intricacies of Jazz, Orchestral, and other technically subtle performance.

SHELL

EvenPly-Six Maple/Gumwood - A thin combination of a hard exterior with milder tonewood, Studio's shell is designed to vibrate freely for explosive mid-to-low range warmth.

EDGE

Outer 60° - Helps the thinner shell speak with brightness and power without sounding harsh.

HARDWARE

MasterCast Hoops - Gives each drum added weight for tonal body, and increases volume in each stroke, particularly in rim-shot hits and high-velocity play.

CL BRIDGE LUGS

A Pearl staple, the CL bridge lug gives the drum a classic look and contacts the shell in separate points for the right amount of vibration control.

Growling and robust in any live or recording setting, the thin Heritage shell speaks with extended, even decay; yet projects with authority in a variety of styles; from Funk to Guitar Rock, Country to Blues.

Each drum projects loudly on the top-end and fills the bass frequencies with thunderous, shaking low-end. Ideal for Pop, R&B, and Gospel. This is Masterworks for a new breed of top players.

SHELL

4-ply Maple / Mahogany w/ 4-ply Maple Reinforcement Rings – Responds like the rumble of a classic roadster; a classic combination of midrange projection and boosted low-end thunder.

SOUND

Produces thunderous sub-bass frequencies with exceptional sustain and subtle projection.

SHELL

EvenPly-Six Birch/Gum/Birch w/ 4-ply Maple Reinforcement Rings (8-ply Snare Drums) Perfectly captures each stroke with articulate high-volume punch and quick, even decay.

SOUND

Speaks with an urgent sonic signature, from arenas to clubs to the modern sanctuary.

MASTERWORKS HERITAGE KIT
IN GLOSS TAMBO RED REVERSE-BURST
W/ NATURAL PINSTRIPE AND NICKEL HARDWARE

MASTERWORKS URBAN KIT
IN BLACK MIST OVER ZEBRAWOOD
W/ BLACK NICKEL HARDWARE

EDGE

Outer 45° – Pearl's traditional edge draws added projection and resonance in this darker-toned shell.

HARDWARE

FatTone Hoops – Lighter in weight but never lacking in rigidity. Respond similarly to the original "stick-chopper" of the vintage era with added tuning stability. Excellent for drawing extended sustain.

STL SWIVEL LUGS

With less direct shell contact than any other Pearl lug, this little wonder features a pivoting brass tension casing that guarantees even tuning and reduced resistance to shell vibration.

EDGE

Rounded 45° (w/ Fully Round Edge on bass drums, standard 45° on Snares). Helps boost low-end frequency with increased shell contact along the head collar. Bass drums feature subdued sustain and maximized low-end power.

HARDWARE

2.3mm Superhoop II Hoops – Made to withstand heavy play without an undue limit on the performance across the tuning range.

SWIVEL TUBE LUGS

This medium-weight STL swivel lug with pivoting tension casing increases projection and reduces unwanted overtones in shell resonance.

MASTERWORKS *Masterworks*

SONIC-SELECT SHELL RECIPE: STADIUM

SHELL

8-ply Premium Maple Toms and Snares, 10-ply Bass Drums and Floor Toms. A thick shell for maximum power and drive.

EDGE

Outer 60° – Increases brightness and power and reduces unwanted overtone.

HARDWARE

2.3mm Superhoop II Hoops – Made to withstand heavy play without an undue limit on the performance across the tuning range.

BRL SWIVEL LUGS

Pearl's revolutionary swivel lugs assure the ultimate in head seating and tuning integrity.

SOUND

Full-bodied attack across the midrange with focused low-end thunder. Combined shell and hardware weight create powerful, centered sonic presence.

A total solution for heavy rock, metal, and intricate progressive grooves. Rises above high stage volume with a full spectrum assault.

MASTERWORKS STADIUM KIT
IN FLAME MAPLE NATURAL BURST W/NICKEL HARDWARE

MASTERWORKS *Masterworks*

SONIC-SELECT SHELL RECIPE: MODERN DRY

SHELL

4-ply Maple and Gumwood with 4-ply Mahogany Reinforcement Rings. A thin shell with softer ring and tonewood that adds focus in the bottom end.

EDGE

Inner 45° – An unconventional edge that contacts the head beyond the shoulder. Focuses the apex to the inner shell plies and increasing control in low tunings.

HARDWARE

MasterCast Hoops – added weight for increased volume and controlled sustain on each drum.

STL SWIVEL LUGS

The pivoting brass tension casing in the two-point STL lug assures accurate tuning, decreased shell weight, and increased low-end power.

Classic tonality for the modern independent studio that speaks with a subdued, natural flavor. Excellent for driving Acoustic stylings and everything from Electronic Dance to Songwriter Pop.

SOUND

Each drum produces a fat, centered tone that blends well in play. The shell's unique Maple/Gumwood/Mahogany combo adds control and restraint.

REFERENCE SERIES

SONICALLY SELECT DRUM PERFORMANCE.

Of the many Reference Series snare drums available, our Reference Series wood snare drum uses 6 inner plies of Birch united with 14 outer plies of Maple for a staggeringly thick 20 ply shell. The 45 Degree bearing edge brings all 20 plies to the party in a highly focused sweet spot. This projects the volume that you would expect from such a thick shell without losing sensitivity or articulation.

REFERENCE 20 PLY Snare Drum

Bridge style lugs and floor tom leg brackets provide maximum resonance with minimal shell contact. Pearl's revolutionary BRL lugs assure the ultimate in head seating and tuning integrity. The unique swivel function assures maximum resonance and sustain.

RF924XSP/BN*** #832 SAPPHIRE BLUE SPARKLE

Our telescoping bass drum spurs feature a high-grip rubber tip. The tip can retract and allows a recessed spike to be exposed for maximum "bite" on carpeted surfaces.

REFERENCE SERIES: THE STANDARD TO WHICH ALL DRUMS ARE JUDGED.

Reference Series Drums are the product of what became a two and a half year search for harmonic perfection. Like keys on a piano, each drum in a kit should combine to create a singular instrument without losing its own sonic signature. With this concept in mind, Pearl explored the many options in the Masterworks crafting process to find the perfect combination of shell material, thickness, and edge profile for each individual size and type of drum. The result is a collective of individually-engineered drums dialed-in to the best sonic character for that drum's intended voice. Truly, the *reference standard for quality and sound performance.*

All Reference snare drums feature Pearl's SR1000 Glide-Lock Strainer, which includes a locking throw off lever and tension knob that won't loosen no matter how hard you play. Low-friction technology permits smooth gliding action for ultra quiet, super precise motion.

US Patent #7220905, #7301087, #7365256

THE REFERENCE RECIPE

All drums are not created equal. So why make them all with the same wood type and edge? Reference toms, snares, and bass drums each have a different 'recipe' for their specific application and voice.

THE REFERENCE RECIPE	SHELL TYPE	BEARING EDGE	SONIC OUTPUT
8" and 10" Toms	Maple(4)/Birch(2) 6-ply (RF 7.5mm / RFP 5.4mm)	Rounded 45°	Extra cut and projection for high-note pitch
12" Toms	Maple(6) 6-ply (RF 7.5mm / RFP 5.4mm)	Rounded 45°	Transitional mid-note; blend of warmth and cut
13" Toms	Maple(4)/Mahogany(2) 6-ply (RF 7.5mm / RFP 5.4 mm)	Rounded 45°	Top-end slap with added low/bottom end
14" and 15" Toms	Maple(4)/Mahogany(2) 6-ply (RF 7.5mm / RFP 5.4 mm)	Fully Rounded	Bracing low-end with extended sustain
16" Toms	Maple(2)/Mahogany(4) 6-ply (RF 7.5mm / RFP 5.4mm)	Fully Rounded	Bracing low-end with extended sustain

THE REFERENCE RECIPE	SHELL TYPE	BEARING EDGE	SONIC OUTPUT
14" Floor Toms	Maple(4)/Mahogany(4) 8-ply (RF 10mm / RFP 7.2mm)	Fully Rounded	Bracing low-end with extended sustain
16" and 18" Floor Toms	Maple(2)/Mahogany(6) 8-ply (RF 10mm / RFP 7.2mm)	Fully Rounded	Bracing low-end with extended sustain
18" and 20" Bass Drums	Maple(2)/Mahogany(4) 6-ply (RF 7.5mm / RFP 5.4mm)	Fully Rounded	Enhanced sub-frequency response
22", 24", 26" Bass Drums	Maple(2)/Mahogany(6) 8-ply (RF 10mm / RFP 7.2mm)	Fully Rounded	Booming bass tone with articulate punch

RF903XP/BN***
#831 MATTE OLIVE BURST

THE REFERENCE PURE DIFFERENCE:

- Ultra-thin "Evenply" Shells (About 30% thinner than Reference) resonate freely with the lightest touch. We reduced the tom thickness from 7.5 to 5.4mm thick and floor toms and bass drums from 10mm down to 7.2mm.
- Shell hardware mass decreased by 30%, allowing better vibration transference to the shell from the head.
- 1.6mm FatTone Hoops' exclusive hemmed/welded edge (US Pat. #8367917) gives increased strength to low-mass design.
- STL Swivel Tube Lugs allow for increased resonance, minimal shell contact, and precisely aligned, no-bind tuning.

RFP943XP/C
#833 EMERALD SPARKLE

Using the same shell composition formula as the original (number and type of wood plies, task-specific bearing edges, etc.) the highly resonant qualities of Reference Pure's lower-mass, thinner shell assure an uninhibited shell-focused tonality that responds immediately in any playing environment.

Pearl's SR1000 Glide-Lock Strainer's locking throw off lever and tension knob assures worry-free, slip-free performance from all Reference Pure Snare Drums. (US Patent #7220905, #7301087, #7365256.)

Aluminum OptiMount Suspension System mounts to the tension rods and are insulated from metal to metal contact.

Air Suspension Rubber Tip (US Patent #5881981) isolates the tom from the floor, preventing tonal choke and increasing resonance.

Pearl's Golden Ratio Air Vent (US Patent #7485791) is precision placed on toms to increase low-end response, while low-mass, low-contact STL lugs and floor tom brackets allow for increased shell sustain.

MUSIC CITY CUSTOM SERIES

HAND ASSEMBLED IN THE USA FOR TRUE PEARL ARTISTS... LIKE YOU.

ONCE EXCLUSIVELY FOR ARTISTS,
THESE DRUMS NOW CAN BE YOURS.

INTRODUCING MUSIC CITY CUSTOM.
THE ARTIST EXPERIENCE
FOR EVERY DRUMMER.

Pearl is known to produce some of the finest drum shells available today and our top of the line Masterworks-based Reference and Masters shells are truly without equal. Our exclusive SST shell forming process is often copied, but never duplicated. Music City Custom drums feature pristine shells of the finest wood plies manufactured in Pearl's renowned overseas Masterworks facility and available in your choice of Reference, Reference Pure, or Masters Maple Reserve shell specifications.

Choose from the tonal complexity of RF or RFP blended shells, or the sonically-centered 4-ply MRV shell formula; configured in a choice of 46 drum sizes and 35 beautiful covered finishes. Experience what our top endorsees have enjoyed for years with Music City Custom.

Barry Kerch (Shinedown) and Dustin Steinke (SIXX:A.M.) backstage with their new MCC kits.

For over 40 years, Pearl's exclusive USA Artist Custom shop has been collaborating with some of the most illustrious names in drumming to handcraft personal touring kits featured on the largest live show stages across the world. Our new Music City Custom Series now allows you to experience the same level of service and pride by owning an exclusive kit precision CNC drilled and fully assembled here at our custom shop facility within Pearl's USA corporate headquarters based in Nashville, TN.

MASTERS MAPLE RESERVE: Pearl's classic Masters MMP 4-ply shell is combined with 4-ply reinforcement rings, FatTone hoops, and our CL bridge lug to deliver the ultimate in Maple tone, power, and sustain.

#453 PLATINUM GOLD OYSTER

Now Available in a choice of Reference (pg. 20-21),

THE MASTERS LEGACY.

Featuring 4-ply Maple reinforcement rings, Masters Maple Reserve is a natural choice for the most discerning musical pallet. This classic integration increases shell stability and tonal control, delivering rich, sustained lows and lively sonic punch.

Masters Maple Reserve comes standard with performance-proven 1.6mm FatTone tom hoops. Featuring and exclusive hemmed/welded edge for added stability, their low mass helps increase sustain and tonal resonance without sacrificing projection.

The Aluminum OptiMount suspension system provides exceptional stability and mounting control by attaching to the tom's tension rods at four corresponding points. This allows the shell to vibrate freely without restriction.

MASTERS MAPLE COMPLETE SERIES

THE MASTERS SHELL COMES FULL CIRCLE.

Pearl's Masters Series has always been synonymous with the very best in professional instruments for the touring drummer. In creating new Masters Maple Complete drums, Pearl has crafted a refined representation of Masters' 25 year history in one total package.

EVENPLY-SIX SHELL:

This premium, six layer North American Maple shell incorporates reduced-thickness, cross-laminated plies. This 28% thinner shell produces the tonal purity and increased resonance of Pearl's legendary Masters MMX, while projecting with the vibrant power of the thicker MRX series.

SP30 Spurs

Insulated Die-Cast Bass Drum Claws

Sleek Bridge-Style CL Lugs

To maintain optimal resonance and articulation, Masters Maple Complete features triple-flanged SuperHoop II tom and snare hoops. Professional hardware touches include SP30 spurs, LB40 floor tom legs, insulated die-cast bass drum claws, and our sleek bridge-style CL lugs for reduced shell contact and improved shell performance.

SESSION STUDIO CLASSIC SERIES

THE ESSENTIAL SOUND OF STUDIO GROOVE.

Fit for virtually any style of music or venue, Session Studio Classic revives the performance-vibe of the original, with fresh, groove-inspiring tonal flavor.

WILL KENNEDY
THE YELLOWJACKETS

The nucleus of the Session Studio Classic sound is the blending of Kapur wood's warm, resonant qualities with the controlled brightness of Birch. Topping this timeless combination with a perfect 45° bearing edge creates a shell with powerful attack and a beautiful tonal decay.

Session toms and snare drums feature rigid yet low mass SuperHoop II Rims for ease of tuning and optimum resonance. All drums feature classic Session 'RL' Series lugs.

SSC924XUP/C
#110 SEQUOIA RED

Pearl's OptiMount Suspension System attaches to the tom's tension rods and provides the ultimate in stability, while at the same time allowing unrestricted resonance through the shell.

TERENCE HIGGINS
WARREN HAYNES / ANI DIFRANCO

To complement its unique shell composition, Session Studio Classic shells are crafted with traditional shallow depths. This allows energy from the stroke to flow freely through the drum, and creates a livelier tonality with vintage-flavored overtones.

WOOD-FIBERGLASS SERIES

VINTAGE HYBRID, MODERN PERFORMANCE.

Developed at the dawn of the 1970's, Pearl introduced Wood-Fiberglass drums as a studio solution for players looking for a louder, fatter, brighter sound. This unique synthetic-fusion shell would help put Pearl on the map, and defined the sound of an era.

Now, this classic tone returns for today's roots-conscious player. The full-bodied power of Pearl's original Wood-Fiberglass drums is back with modern craftsmanship, style, and functionality.

FW923XP/C
#327 SATIN COCOA BURST

THE HARDWARE

Wood-Fiberglass toms include the OptiMount suspension system to remove undue shell pressure and increase sustain. Pearl's 2.3mm triple-flanged Superhoops add to the attack without sacrificing tonal body.

THE SHELL

True to the legacy set by Pearl's original innovative hybrid, Wood-Fiberglass drums feature a hand-applied inner layer of Fiberglass to add focus to the

darker tonal qualities of its 7-ply Poplar/Kapur wood shell. To further sculpt the tone of these unique drums, a sharp 45° edge is cut on the toms of each kit, while the bass drum features a fully-rounded edge. This accentuates the sonic cut of Fiberglass; delivering a unique combination of warmth, projection, and focused decay.

Original shots of Wood-Fiberglass "Image Creator" kits from the 1970 Pearl Catalog.

CRYSTAL BEAT SERIES

THE ORIGINAL SEAMLESS ACRYLIC DRUM SET.

In 1973, Pearl set a benchmark in the drumming world with the introduction of Crystal Beat. A stunning combination of visual appeal and powerful, sonic attack, Crystal Beat's revolutionary seamless construction was molded - not rolled - creating a strong acrylic drum system that could stand up to the rigors of touring.

Original Crystal Beat Kit from 1973 Pearl Catalog.

DECADE MAPLE SERIES

A DRUM KIT 10 YEARS IN THE MAKING.

DECADE MAPLE

Practice Time is Over, It's Time to Get Serious • To elevate the playing field for today's advancing drummer, Pearl has drawn on 70 years of award-winning drum craftsmanship to create the Decade Maple series drums. The first all Maple, lacquered drum set to carry a Lifetime Warranty in this price range, Decade is built to push the boundaries of performance and value, and project your drumming voice with authority.

DMP925SP/C
#228 SOLID YELLOW

DMP943XP/C
#229 WHITE SATIN PEARL
(Snare Sold Separately)

The Kit You've Prepared Yourself for is Here • With feature-heavy shell packs starting at only \$559 Street, Decade Maple drums are perfect as a primary kit for evolving players, or a secondary "gigging" kit for the seasoned pro.

THE DECADE DIFFERENCE

Decade's 6-ply/5.4mm all Maple shell sets it apart from other players in the field. The final product of ten years of process and material refinement, each cross-laminated ply incorporates Pearl's proprietary Superior Shell Technology. The resulting thin (but powerfully strong) shell reacts quickly to the stroke, producing beautifully resonant highs and thundering lows.

Pearl's three-way Opti-Loc Mounting System produces clear tone and wobble-free stability by suspending each tom at two tuning points and one of the drum's two air vents.

Decade's low-mass / low-contact shell hardware assures optimum shell performance and rock-solid durability. Features include Uni-Lock gearless tom arms, insulated die-cast claw hooks, R40 Air Suspension Floor Tom feet, and a newly-designed mini lug.

Available in seven custom colors, Pearl's cultured lacquer finishing process is applied to each shell exterior to add spectacular vibrancy.

830 SERIES HARDWARE

Without a doubt the most sophisticated hardware ever offered on a drum kit at this price. The BC830 Boom stand, C830 Cymbal stand, and S830 Snare Drum stand all feature infinitely adjustable Uni-Lock Tilters for pinpoint positioning. Robust 1" diameter base tubes and 7/8" diameter center tubes with sturdy double-braced tripods provide exceptional rigidity and stability. The H830 Hi-Hat stand features swivel legs that accommodate double pedals. The P930 drum pedal combines the styling and performance of the Demon Drive pedal with the Eliminator interchangeable cam technology for tried-and-true power, speed, and control.

EXPORT SERIES

THE BEST SELLING DRUM SET OF ALL TIME.

Export Series incorporates Pearl's SST (Superior Shell Technology), Opti-Loc Mounting System, all-new 830 Series Hardware with a P930 Pedal, and a choice of six amazing stocking finishes.

Pearl's Opti-Loc Mounting System's three-way attachment design utilizes rubber isolators at two tuning points and another at one of the drum's two air vents. This creates maximum sustain and resonance while providing wobble-free performance.

P930 PEDAL

Export comes equipped with the P930 drum pedal. This drum pedal combines the long board design of our Demon Drive drum pedal with the interchangeable cam design of our Eliminator drum pedal for amazing performance and value.

THE MOST AMAZING DRUM MODULE THE WORLD HAS EVER KNOWN.

SERIOUSLY, IT'S THAT GOOD.

Superior sound, accurate triggering and connectivity are the most important features of a drum module. Pearl Drums and Steven Slate have joined forces to create "Mimic Pro" - the world's most advanced percussion sound source for studio and live performance applications.

At the heart of this ground breaking unit is the new Steven Slate 5 drum library that features multi-channel drum samples recorded in world class studios. Each instrument supports adjustment of Attack, Sustain, Release, Tune, Pan and volume. Instead of substituting digital effects to create ambience, these instruments use the actual ambient recordings with separate adjustment of close, overhead and room mics.

Mimic Pro is the first drum module to implement a 7" IPS touch screen and the first to offer 2 mixers for independent headphone and front house outputs. Now that the drummer is responsible for triggering loops and other sounds for a performance, Mimic Pro can import audio files to trigger from your pads.

MIMP24B

STATE OF THE ART FEATURES

- 7" IPS Touch Screen with Programmable, Dynamic Data Wheel
- 120 gig solid state drive
- 16 Dual Zone Inputs
- 16 Programmable Audio Outputs
- Midi In and Out

- Superior Burr Brown Converters
- Two completely separate mixers for headphone and Main outs. (Drummer gets a personal mix w/wo effects independent of Main outputs)
- Import Wave, Aiff or MP3 sound files
- Compatible with most all pads on the market
- New Steven Slate Drums 5
- 24 bit multi channel sample library with separate adjustment of Close, Overhead and Room mics.
- Onboard effects include EQ, Compression, Reverb with Room Sizes
- Individual Cymbal Volume Adjustments for Bell, Bow, Edge, Chik and Splash
- All AUX and Cymbal inputs have choke function.
- Supports triple and dual zone cymbals and dual zone hi hat.
- SD card slot and USB.
- Additional Instruments and Libraries will be available
- Stereo Aux In and Onboard Metronome
- Internal Recording for Loops and/or Performances

Storage is no longer a problem with Mimic's 120GB Solid State Drive and lightning fast loading time. Speaking of connectivity, Mimic Pro is compatible with Pearl TruTrac pads and a host of pads from other manufacturers. Top that off with sixteen audio

outs, 16 Trigger inputs, independent SD card Slot, USB and Midi In & Out, Stereo Aux input and you would be hard pressed to find a better option for today's musician.

ePRO SERIES

THE NEW GENERATION OF REAL ELECTRONIC DRUMS.

TOMMY LEE
MÖTLEY CRÜE

EPEXX725S/C
#708 GRINDSTONE SPARKLE
WITH EP02P CYMBALS & EHH2 HI-HAT

All of these great components couldn't reach their full potential without rich drum and percussion sounds generated from the r.e.d.box drum module (r.e.d. stands for Real Electronic Drums). The 128MB RAM capacity accommodates 1000 High Definition Sounds, 150 High Definition kits, plus space for 50 user-created kits.

r.e.d.box
Real • Electronic • Drums

HIGH DEFINITION KITS -
JUST A CLICK AWAY.

One very unique and exciting capability of Pearl's r.e.d.box is the Memory Switch, which gives you the ability to flash the memory and substitute a lush, super high-end drum set for the original acoustics. Pearl has partnered with professional digital drum samplers Toontrack, Zildjian, and Steven Slate Drums, to provide the lush kits through redboxsoundshop.com.

RBM20MUL
r.e.d.box MODULE

redboxsoundshop.com offers the ultimate variety of high resolution kits ready for download. Play along mp3s are available in all genres as well as historical Pearl kits.

MEMORY SWITCH

One of the most unique features of the r.e.d.box module is the ability to flash the memory of the module and replace the Original Acoustics with one large and lush-sounding kit. Just follow these easy steps and you'll be on your way to playing premium kits on your ePro Live from the best drum sampling software companies in the world!

1. Visit redboxsoundshop.com to preview and purchase specially designed kits from Zildjian, Toontrack, Steven Slate, and Pearl and download the free software that allows your PC or Mac to communicate with the r.e.d.box.
2. Connect your computer to the r.e.d.box with a USB cable.
3. Launch the Memory Switch communication software and move the Original Acoustics to your computer.
4. Using a Mac, drag and drop the Lush kit onto the r.e.d.box icon which loads in 20 minutes. (Separate instructions required for PC)
5. Reverse the process to replace the original acoustics.
6. Free samples of lush sounding kits and drumless play-along tracks are available at redboxsoundshop.com.

PAD & CYMBAL INPUTS
12 Dual-Zone trigger inputs for 24 unique sound sources

MIDI IN/OUT
Connects with external MIDI device

USB IN/OUT
Input for loading new sound sets from Mac or PC. Sends and receives MIDI

AUX IN
Connects to external sound source

AUX OUT
Connects to monitor system or recording device (sound assignable)

MAIN OUT
Connects to amplifier or speaker system (sound assignable)

r.e.d.box 2.0 firmware updates provide an enhanced dynamic range and sensitivity to give drummers the expression needed to appreciate the nuances of the lightest ghost notes and softest buzz rolls on stage or in the studio. Every kit has been modified to use the pitch-to-velocity function which allows samples to change in pitch when played at different velocities, creating a more realistic performance and reducing the unwanted triggering that is evident in most modules. ePro Live now supports the addition of 2 extra crash cymbals which require no additional programming when inserted to trigger inputs #10 and #11. Additional improvements have been made on the panning, EQ, and effects to provide the highest quality sonorities for recording or live performances. The fifty new kits run the gamut from Acoustic, One man Rhythm Sections and Hybrid Electronic. The r.e.d.box now has 150 kits and is the largest library available in a drum module.

ePRO POWERED BY EXPORT

ePro Powered by Export is the new generation of electronic drums from Pearl. We have combined the power of ePro live with our new Export series to give you the real look and feel that today's drummer demands. ePro powered by export is available in both Lacquer and Wrap Finishes and includes the new EHH2 Hi Hat controller.

r.e.d.box
Real • Electronic • Drums

The r.e.d.box module features 1000 sounds and 150 programs that covers everything from Acoustic drums to Hybrid combinations. And if that wasn't enough, you can use it as an acoustic kit, electronic kit or create a hybrid combination of both that gives you endless possibilities.

ePRO COCKTAIL KIT A MODERN VERSION OF OLD SCHOOL DESIGN

- The first multi zone Electronic Cocktail Kit utilizing the Pearl r.e.d.box Module
- Setup with 7 programmable triggers that can be assigned with any of the 1000 sounds in the Redbox module
- The layering capability can produce endless possibilities for percussion and drum set design
- Can be used by drummers and percussionists who want to have the real look and feel on stage

ELECTRONIC PRODUCTS

tune-bot

TUNE-BOT

Every guitar player has an electronic tuner for speed and accuracy in tuning. Tuning a drum is much more time consuming and difficult... until now. Overtone Labs created a fast, accurate and effective electronic drum tuner that will change the way you tune and sound.

- Measures True Fundamental and Lug-To-Lug Pitch
- Interval Tuning of Toms
- Displays Pitch in Hertz and Musical Notes
- Saves Tunings for Over 20 Drums
- Conveniently Clips to Drum Hoop

TB001

tune-bot^{gig}

TUNE-BOT GIG

The Gig features a large LCD display and is optimized for ease of use in the studio, on stage or in your practice room at home. The redesigned clip easily attaches to any standard drum hoop and the new silver body is easier to spot in your gig bag.

- New Streamlined Design
- Lug Pitch Measurement
- Overall Pitch Measurement
- Frequency and Note Modes
- Overtone Filters
- Difference Mode

TBG001

THRONE THUMPER

THMP1

Compatible with any electronic drum set and attachable to any throne. The Throne Thumper is equally at home vibing your kit's low frequencies to you as you practice, or letting you feel the bass player's groove in a live show environment where hearing the other musicians is tough. Installation is easy and coupled with Pearl's Precision Drum Monitors, you'll hear every sonic nuance that your kit produces.

DRUMOMETER

DR2000

The Drumometer Model II measures a drummer's technical accuracy, hand or foot speed, and endurance by counting the total number of strokes a drummer can play within a preset time (1 to 900 seconds). It's a very progressive practice tool to help develop a relaxed playing style, strengthen endurance, and improve your sense of timing. The Drumometer is an effective teaching device for any drum instructor as students have a tangible goal to surpass.

Technical accuracy can only be measured by creating consistent and relaxed strokes and the Drumometer will show you exactly how well a pattern is being executed.

FREE FLOATING SNARE DRUMS

THE ULTIMATE PURITY OF SOUND.

SEE AND HEAR
ALL 8 FREE FLOATING SNARE DRUMS
pearldrums.com/2minute

TASK-SPECIFIC INNOVATION Just as each player has an individual voice, snare drums speak differently depending on shell type, size, weight, and application. With the latest Free Floating snare models, Pearl's engineers crafted each to fit a specific task by model. By combining the tonal character of each shell type with its ideally-matched depth - and adding different Ultra-Sound snare wires to further sculpt individual tonal personality - these Task-Specific Free Floating snares give the player a unique voice for any sonic situation.

CLICK-LOCK THROW-OFF SYSTEM Featured on all new Free Floating snare models, the Click Lock Throw-Off is engineered with Polymer bearings for precise and smooth action. The unique nylon grip mechanism locks the snares into place at the top position, and disengages quickly when released.

Free Floating snare models are tailored to bring power, clarity, and true articulation to fit nearly any playing environment - advancing the instrument even further for a new breed of players.

30 years ago, Pearl introduced the Free Floating Snare Drum. A milestone achievement in snare drum evolution, this unique system removes all hardware from the shell to greatly improve the drum's resonance and projection.

• Deep, rich snare power with short, even sustain decay.

FTAL1480	SIZE 14" x 8"
SHELL	1.2mm Seamless Aluminum
HOOPS	MasterCast (DC1410/DC1410S)
LUGS	FT80
TENSION RODS	SST5042
STRAINER	SR160F
SNARES	SN1442C

• Ultimate in throaty, deep snare growl. Shortened decay.

FTMH1480	SIZE 14" x 8"
SHELL	8 ply (10mm) African Mahogany
HOOPS	MasterCast (DC1410/DC1410S)
LUGS	FT80
TENSION RODS	SST5042
STRAINER	SR160F
SNARES	SN1442C

• Lower overtone body, preserves crisp top-end snare snap.

FTPB1465	SIZE 14" x 6.5"
SHELL	1.2mm Phosphor Bronze
HOOPS	MasterCast (DC1410/DC1410S)
LUGS	FT65
TENSION RODS	SST5042
STRAINER	SR160F
SNARES	SN1420C

• Full-spectrum, both bright in punch and warm in tone.

FTBR1450	SIZE 14" x 5"
SHELL	1mm Brass
HOOPS	MasterCast (DC1410/DC1410S)
LUGS	FT50
TENSION RODS	SST5042
STRAINER	SR160F
SNARES	SN1420I

• 1mm shell for bright, open attack with ringy overtone.

FTSS1435	SIZE 14" x 3.5"
SHELL	1mm Stainless Steel
HOOPS	MasterCast (DC1410/DC1410S)
LUGS	FT35
TENSION RODS	SST5035
STRAINER	SR160F
SNARES	SN1420D

• Full, rounded bottom frequencies. Extra midrange body.

FTMMH1465	SIZE 14" x 6.5"
SHELL	6 ply (7.5mm)*
HOOPS	MasterCast (DC1410/DC1410S)
LUGS	FT65

HYBRID EXOTIC SNARE DRUMS

SPACE-AGE PRECISION, TIMELESS TONE.

SEE AND HEAR
ALL 7 HYBRID EXOTIC SNARE DRUMS
pearldrums.com/2minute

To capture sonic perfection for true professional, Pearl's latest experiments with different material combinations have yielded new tonal frontiers in our new Hybrid Exotic Series snare drums. The purest representation of Pearl's finest craftsmanship, Hybrid Exotic shell choices include spun-composite VectorCast™, dual-step seamless Cast Aluminum, and cross-laminated Kapur and Fiberglass, for the ultimate in power and prestige.

INTRODUCING VECTORCAST™ A single tiny strand can make all the difference in the world. Beginning with a composite material filament and resin thread, Pearl's new VectorCast shell is formed around a mandrel in an X-pattern; creating a thin, high-strength shell that "flexes" with each strike. Its characteristic sound is both lively and fat, and is a vast departure from other synthetics like Acrylic or Carbon Fiber.

GLIDE-LOCK THROW-OFF SYSTEM Pearl's SR1000 Glide-Lock Strainer's locking throw-off lever and tension knob assures worry free, slip-free performance from all Hybrid Exotic Snare Drums. (US Patent #7220905, #7301087, #7365256.)

NEW SPIN-TIGHT™ TENSION RODS To maintain tuning tension across the batter head, all Hybrid Exotic snare drums feature Pearl's new Spin-Tight tension rods. This elegantly simple innovation creates a tension rod-within-a-tension rod, that allows the rod to expand and lock into place within the swivel nut. Utilizing a special drum key, tunings can be controlled under high-impact play like never before. (Patent Pending)

• Quick, yielding snap with heavy midrange overtones.

HEP1450	SIZE 14" x 5"
SHELL	VectorCast
HOOPS	SuperHoop II (SH1410B/1410S)
LUGS	STL100
TENSION RODS	SPT5047 (top) - SST5047 (bottom)

SENSITONE SNARE DRUMS

CLASSIC, RELIABLE SNARE POWER.

The Sensi Tone sound is a necessity. Vital, immediate snare tone that recalls the chart-topping legends of yesterday, but with a undeniable modern sensibility. Classic beaded shells in Steel, Nickel-Plated Brass, and Seamless Aluminum deliver the goods and the right gig-ready touches make them utility standards for the power player.

THROW-OFF SYSTEM: SR150 STRAINER

The secret behind Pearl's new patent pending Click-Lock Strainer System is a "C"-shape clip that clicks onto the tension dial. This prevents the lever from disengaging, and the tension dial from loosening, even if the tension is very low. A Polymer bearing on the axle provides smooth and accurate action, and reliably quick response from the lever.

(U.S. Patent #9082376)

SENSITONE PREMIUM

Engineered for performance perfection, Sensi Tone Premium snare drums feature a choice of Patina Beaded Brass, Beaded Phosphor Bronze, or even-ply North American Maple shells. With 14" models available in 5" and 6.5" depths, the Premium line's newcomer is the new African Mahogany 15"x5" Baritone snare model, adding an additional voice to the tonal pallet.

Sensi Tone Premium's selection of refined percussion instruments truly demand a place of prestige, and are sure to be first-call drums for the stage, studio, and beyond.

Pearl's stylish new Arch-Tube Lugs come standard on all Sensi Tone Premium snares. The low-contact Arch casting includes two self-aligning swivel nuts rather than a contiguous tube. This allows for pristine tuning across the head and reduced margin for binding within the lug. U.S. Patent #9502013

• Top-end projection with fat highs and mids.

DEMON CHAIN

TRADITIONAL FEEL & POWER OF A CHAIN

The Demon Chain pedal combines all of the innovative features of the Demon Drive pedal with all the power, speed, and traditional feel that so many players demand. The Perfect Circle cam provides a smooth consistent response throughout the entire range of the stroke for pinpoint accuracy and control. If you demand the feel of a chain drive in a high performance package, take the Demon out for a test drive.

DEMON DRIVE

UNLEASH THE DEMON

The Demon Drive is without a doubt the most thoroughly engineered bass drum pedal the World has ever seen. Lightning fast power and silky smooth finesse make this the choice of some of the most prolific drummers in the world. An amazing array of adjustable features turns this pedal into an extension of your body. From beater angle, traction plate grip, and footboard height and angle, it's all your choice. And when you feel the need for speed the Demon quickly converts to a double pedal with a simple add on pack. Unleash the Demon and find out what custom feel is all about.

P3002D
DIRECT DRIVE DOUBLE PEDAL
(SHOWN IN LONGBOARD SETTING)

The Click-Lock prevents the tension knob from loosening no matter how hard you play. Simply flip up for adjustment.
U.S. Patent #7754953

The Demon Drive beater features a Control Core elastomer center that eliminates unwanted vibration.
U.S. Patent #7626108

The two position Direct Link adjusts for a choice of light or heavy feel. This creates the most seamless link between the player's musical ideas and their execution on a bass drum.

The most unique feature of the Demon Drive pedal is Pearl's exclusive Duo-Deck Footboard, the world's first convertible footboard. Through a simple adjustment, the footboard can be adjusted from a traditional shortboard to a longboard pedal in seconds, offering a slightly lighter, quicker feel that is the preferred setup when speed is a necessity.
U.S. Patent #7626107

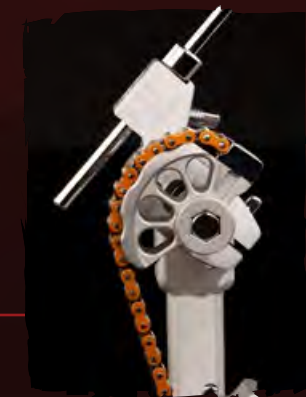

The NiNJA Bearings were originally designed by skateboarding engineers. These bearings feature micro-polished steel balls for amazing speed and incredible smoothness.

P3002C
CHAIN DRIVE DOUBLE PEDAL (SHOWN IN SHORTBOARD SETTING)

The Z-Link Drive Shaft features Pearl's exclusive Zero Latency Universal Joints that use precision radial ball bearings and hand-assembled CNC machined frames for zero play and smoothness that allows your slave pedal to respond as quickly and precisely as your primary.

The "linear response" Perfect Circle Cam provides consistent and smooth feel throughout the entire stroke for pinpoint accuracy and superb control. The racing-inspired Cam is designed to minimize mass and maximize speed and power transfer.

The Demon Chain Pedal is driven by the ultra-lightweight Power Chain with low-friction rollers for speed, and double chain construction for power and dependability. The orange anodized link plates identify the Demon Chain as a member of the Demon family of pedals.

ELIMINATOR REDLINE PEDAL

THE KEY TO ULTIMATE BASS DRUM PERFORMANCE.

ELIMINATOR REDLINE

P2052B
ELIMINATOR REDLINE DOUBLE PEDAL, BELT DRIVE

CHOOSE A CAM, REDLINE YOUR PERFORMANCE

Pearl's original PowerShifter Eliminator was a giant leap ahead in bass drum pedals. The world's only pedal featuring the patented Interchangeable Cam System, Eliminator's virtually unlimited tunability lets the player lock in totally personalized feel, power and speed.

The Eliminator: Redline is the next step forward. Like having four pedals in one, Redline fuses the stunning power and flexibility of the original Eliminator with the fluid speed of our Demon series pedals. With a host of radical improvements, Eliminator: Redline helps unlock perfect feel by locking in a cam, further pushing the boundaries of bass drum performance.

Eliminator Redline Series pedals come standard with Custom Carry bags.

P2050C
ELIMINATOR REDLINE SINGLE PEDAL, CHAIN DRIVE

ELIMINATOR REDLINE

INTERCHANGEABLE CAM SYSTEM U.S. PAT.#6172291

Pearl's exclusive cam system provides a choice of 6 different color-coded cams (4 included and 2 more optional) allowing you to quickly change the power and feel of the pedal to suit your individual playing needs. Changing from cam to cam is as simple as pushing the release button and snapping another in place.

*Chain Shown w/ Optional Red Cam

CHAIN OR BELT DRIVE

The sprocket-less double chain drive on the Eliminator Redline (P2050C) provides super smooth action with powerful and precise feel. The Eliminator Belt Drive model (P2050B) provides a very comfortable, natural feel similar to a direct-drive system.

- P2050C:** Chain Drive Single Pedal Complete
- P2050B:** Belt Drive Single Pedal Complete
- P2052C:** Chain Drive Double Pedal Complete
- P2052B:** Double Pedal Complete, Belt Drive

- P2052CL:** Chain Drive Double Pedal Complete (Left Footed)
- P2052BL:** Belt Drive Double Complete (Left Footed)

CONVERSION KIT

The P2051 Conversion Kit makes your existing single Eliminator into the left auxiliary pedal in a fully-functioning double pedal (right-handed only).

- P2051C:** Chain Drive Double Pedal Conversion Kit (Right Footed)
- P2051B:** Belt Drive Double Pedal Conversion Kit (Right Footed)

P2052C
ELIMINATOR REDLINE DOUBLE PEDAL, CHAIN DRIVE SHOWN W/ INCLUDED RED CAM ATTACHED

INDEPENDENT TRACTION GRIPS

Eliminator Redline's redesigned pedalboard features Pearl's exclusive reversible Traction Plate insert, allowing individual traction grip configuration to suit your exact playing requirements.

ZERO PLAY HINGE

Our proprietary stainless steel hinge provides maximum freedom of motion for blazing speed and prevents play between the footboard and heel. U.S. Patent #7179978

NiNja BEARINGS

Developed by skateboarding engineers for the ultimate in fast, quiet performance, NiNja Bearings incorporate state-of-the-art micro-polished steel balls for incredibly fast and smooth performance.

ROLLER HOOP CLAMP

w/ Side Mount Adjustment. Quickly adapts to a wide range of hoop thicknesses for the smoothest, most secure grip possible. Easy side access to the hoop clamp makes set up and tear down a breeze. U.S. Patent #5726370

THE CONTROL CORE QUADBEATER

Pearl's improved, reduced profile QuadBeater provides the same four beater surfaces of the original (two hard plastic, two felt). The Control Core elastomer center's added feel and power eliminates vibration. U.S. Patent #5610351 U.S. Patent #7626108

CLICK-LOCK SPRING ADJUSTMENT

w/ NEW Rotor Tension Cradle. Locks the desired spring settings into place and prevents tension creep under play. The counter spring adjustment's rolling cradle allows the spring to pivot with each stroke for less resistance. U.S. Patent #7754953

POWERSHIFTER FUNCTION

By moving the footboard forward or back, our revolutionary Powershifter function provides 3 positions to fine tune the power and feel of the pedal. Instantly change the drive angle leverage to create a light, regular, or strong feel. U.S. Patent #5574237

UNI-LOCK BEATER ANGLE CAM

Grips the axel a full 360 degrees and allows infinite beater angle adjustments. Features the Floating Spring Pendulum design that is perfectly centered on the clamp for full bearing movement and maximum smoothness.

P930/P932 DRUM PEDALS

SPEED & CONTROL FOR THE MASSES.

SUPER SMOOTH, EXTREMELY FAST!

Pearl's P930 merges many of the advanced features of our Flagship Demon Drive with our Award winning Eliminator line to create a bass drum pedal never before available in this price range.

High end performance inspired from our Demon Drive like the longboard footboard, Control Core Beater and our Click-Lock spring tension keepers combine with our PowerShifter and Eliminator style cam technology that uses our Perfect Circle cam with a removable Orange Progressive Cam for fully tunable performance and lightning speed and control.

If you want fast feet and you're on a budget, step up to Pearl's P930 - the ultimate pedal.

CONTROL CORE DUO BEATER

U.S. Patent #7626108

Our Control Core Beater utilizes our Control Core elastomer center to minimize vibration. It features 2 unique striking surfaces, a slightly rounded felt and a slightly convex hard plastic surface.

POWERSHIFTER FUNCTION

U.S. Patent #5574237

Our PowerShifter function provides 2 positions to fine tune the power and feel of the pedal. By moving the footboard forward or back, you change the chain angle, thus changing the leverage to create a light, or strong feel.

INDEPENDENT TRACTION GRIPS

Like all Eliminators, the pedal has removable traction grip inserts that can be adjusted or removed to tailor the amount of grip or slip. The plate is even reversible for more choices.

Sharing many of the key characteristics of new Eliminator Redline bass drum pedals, 2050 Series Hi-Hat Stands deliver unparalleled versatility and customization in hi-hat pedal control. The world's-only hi-hat stand featuring the Interchangeable Cam System, 2050 Series stands' customizable options are designed to eliminate resistance, reduce fatigue, and increase performance.

The RH2050 Remote Hi-Hat's low-friction cable produces smooth, lag-free performance with the lightning-fast action of the PosiLink Twin Cam drive system. Fast, natural-feeling cymbal play is finally accessible virtually anywhere on the kit, or to facilitate multiple hi-hat system setups.

The HA130 positions your hi-hat next to your bass pedal in double bass set-ups for super quick transitions between pedals.

The H2050 Precision Spring Tension Dial allows absolute perfect tension control for the ultimate in fine-tunable response.

HA130

H1050 Pedal Height Adjustment

The H2050 and H1050 features our infinitely adjustable footboard angle adjustment. This allows precise height matching when using multiple pedal setups.

H1050 Hi-Hat Stand

H2050 and H1050 Hi-Hat Stand uses beefy 1" tubing and clamshell clamps with built in memory locks for superior rigidity.

H930 Hi-Hat Stand

H930 Hi-Hat Stand features our Demon style longboard, double braced tripod w/swivel function, and precision tension dial.

H830 Hi-Hat Stand

H830 Hi-Hat Stand is standard equipment with our Export series and offers a monochromatic Demon Style longboard design and swivel tripod.

H150S* Flat-Based Swiveling Hi-Hat

*Toe Stopper Not Included

The H150S independent tripod is positioned separately from the pedal frame making it the only flat-based hi-hat stand with swiveling legs.

SNARE STANDS

EVERY SNARE SHOULD BE SO LUCKY.

Our premiere S1030 model offers chameleon like diversity for stage or studio. Rock solid footing with a GyroLock tilter that allows pinpoint positioning. The basket arms promote optimal resonance with the Air Suspension cradle.

S1030 SNARE STAND GYROLOCK

Our premier S1030 model features Pearl's 360 degree infinitely adjustable GyroLock tilter for ease-of-use and pinpoint positioning.

S1030 SNARE BASKET

The Pearl S1030 Snare Stand adjusts to fit virtually any size snare from 10" to 16". The Air Suspension rubber tips securely cradle your prized snares while allowing them to fully resonate.

U.S. Patent #6710236

S930D SNARE BASKET

The S930D Snare Stand is a shorter version of the S930 Snare Stand, and is built to comfortably accommodate deeper snare drums.

SPIKED / RUBBER FEET

Our CVT300/3 Push Button Spiked/Rubber Feet come in pack of 3 to retrofit on any of our 1030 Series hardware for sure-footed performance on any terrain.

U.S. Patent #7371953

S1030

- GyroLock Tilter
- Air Suspension Rubber Tips (U.S. Patent #6710236)
- Trident Tripod
- Oversize Super Grip Rubber Feet
- Fits Snares 10"-16"
- Height Range of 470-660mm

The S930 offers similar features but uses our legendary Uni-Lock tilter and is also available as a drop basket version.

S930

- Uni-Lock Tilter
- Air Suspension Rubber Tips (U.S. Patent #6710236)
- Double Braced Trident Style Tripod
- Fits Snares 10"-14"

BOOM/STRAIGHT CYMBAL STANDS

WELCOME TO BOOM TOWN.

Pearl's BC2030 features patent pending Nodal Point Markings on the telescopic tubes that allow cymbals to achieve better clarity and sustain when the tubes are positioned at their respective Nodal Points.

Your hardware has to work as hard you do. Sometimes it's what separates good drummers from the great. Our hardware is road-ready and street-wise. Strong, rigid and durable yet incorporating sophisticated refinements and innovations. Our BC2030 is the most technically advanced boom stand ever devised. It's perfect for the studio musician and offers an unbelievable range of positioning for your prized cymbals.

FOR EVERY CYMBAL, THERE IS A PLACE.

Nothing takes more abuse than your cymbal stands. Constant practice, tear 'em down throw 'em in the back of your ride, load 'em in at the gig. Abuse 'em a couple of hours on stage then start all over again. Those clamps and tilters take a lot of abuse that's why Pearl is the choice of the serious working drummer. We've been advancing drum hardware since 1946 so if you're serious about drumming, get serious about your hardware.

Convertible Tripod Base

GyroLock Tilters are infinitely adjustable and provide 360 degree range of motion for precise positioning with one-step convenience.

The Trident Tripod uses a full 360° of clamping force via the hinged collar. The inner tube rests in a nylon bushing to prevent metal to metal contact. Heavy duty legs feature lateral bracing for superior ultra quiet rigidity.

WINGLOC (U.S. Patent # 6884015)
Pearl's WingLoc Quick Release Wing Nut snaps open and snaps closed for super quick removal and attachment.

REVERSIBLE SEAT CUP (U.S. Patent #6940006)
The seat cup is specially designed to "float" normally or it can be reversed and "locked" to prevent noise during recording.

830 Series stands offer lighter weight while incorporating many of the 1030 series designs. The tripod uses Trident style design with double braced legs. Large easy to use wingnuts and lateral struts for optimal stability.

The Reversible Felt / Foam Cymbal Washers allow four-way control of cymbal "ring" by mixing and matching the "hard" and "soft" surfaces of the washers.

The Clamshell designed Die Cast joint on 2030, 1030, 930 series Boom and Straight cymbal stands, provides superhuman clamping force. Set your position, lock it down and wail away.

GYROLOCK UNI-LOCK GEARTILTER

Pearl's Tom Arms offer positioning possibilities never before attainable. Our T/TC1030 Series features our GyroLock tilter for an infinite 360 degree range of movement. The T/TC930 Series use our Uni-Lock tilter for 180 degrees of motion. Our TH88 and TH70 Tom Arms Series use our dependable gear tilter.

UX80 & UX80S Universal Clamps feature rotating infinitely adjustable clamps for multiple uses. The TX100 accepts 7/8" dia. tubes making it ideal for extending the height of snare stands.

Pearl has congas to meet the needs of every player from seasoned professionals to beginners. Our Elite Series offers the highest quality heads with polished Contour Crowns and a choice of shell materials: 100% aged Thai Oak or seamless Fiberglass. Our Primero Pro line features professional-quality construction at an affordable price and a choice of 100% Thai Oak or Fiberglass. The Primero line features outstanding Pearl quality along with the same choice of 100% Thai Oak or Fiberglass. Pearl's Signature Congas feature Contour Crown Rims, polished chrome hardware, and exclusive Self-Aligning Washer System for truly optimal performance. Each series is offered with matching Bongos, and is available in 100% Thai Oak or seamless Fiberglass shells.

TRAVEL CONGAS

Pearl Travel Congas are available in three standard sizes: 11" x 3.5", 11.75" x 3.5" and 12.5" x 3.5". They feature wood shells and stave construction and Remo FiberSkyn 3 synthetic heads. Five precision Allen bolts provide accurate and easy tuning via the included foam-handle wrench. The Travel Conga stand is designed specifically to be rock solid, and lightning fast during set-up and pack-up. The stand comes with a carrying bag that includes a pocket for the optional PPS50TC Bridge that connects two stands together to minimize creeping while performing.

CAJONS & ACCESSORIES

GET IN THE CAJON ZONE!

Cajons are the perfect introduction to the world of percussion. Affordable, easy to carry and just plain fun to play. Pearl offers a diverse collection of Cajons with a complete selection of accessories to customize your instrument and develop your own unique sound. Perfect for drum circles, small gigs or even studio work, your Cajon will become your new best friend.

100° Ergonomic Playing Position

CENTIGRADE CAJON PCJ650CG

This Fiberglass cajon features a front faceplate with 100° of angle for less stress on your lower back. The molded rear bass port projects a full, rich bass tone.

#650 Mango Cherry Burst

SAMBAJON PCJSBJ

This Fiberglass cajon has two playing surfaces: a traditional hardwood front faceplate and a padded, cloth covered side that produces a Brazilian Surdo / "808" style bass tone. Perfect for use with any cajon pedal.

Black Lacquer Finish

CYCLONE CAJON PCJ647CYC

When you hit this rounded back, fiberglass beauty and the air funnels around and exits the bass port resulting in a fat, throaty bottom. The flexible wood faceplate provides a crisply articulate voice with remarkable projection.

Black and Natural finish

3D CAJON PBC53D

The 3D Cajon features 3D, CNC-cut graphics on the sides of the hardwood body. Internal snares are raised to create a larger bass strike zone. Inside the faceplate is coated with clear lacquer for a crispy snare response.

Black and Natural finish

INNER CIRCLE MULTI DRUM CAJON PCJIC645

Sit on top for standard cajon playing, or unlatch, remove and place drum on the closed cajon and play like a conga at a seated height. Or attach the accompanying strap and you have a shoulder-slung djembe or Timbao.

CLUB CAJON PBC5512CC

The Club cajon features all wood construction with fixed snares and a rear facing bass port that deepens the lows.

#512 Sheer Black finish

PRIMERO JINGLE* PBC507JC

The Primero Jingle is a wood version of the Jingle cajon and features built in Platinela and tambourine jingles that allow you to sound like an entire percussion section.

#507 Gypsy Brown finish

WEDGE TRI-SIDE CAJON PCJ3000B

This unique pie slice shape offers a natural seated playing position and 2 striking surfaces. Fiberglass construction with fixed snares and Artisan II finish. Ported in rear.

Black and Natural finish

JESUS DIAZ SIG. RADIAL EDGE CAJON PBC509JD

In conjunction with world-renowned percussionist Jesus Diaz, Pearl has created the Radial Edge Cajon. Its high-end wood construction, fixed snares and luxurious Artisan Rosewood finish make this the ultimate cajon experience possible.

BRUSH BEAT CAJON PCJ633BT

Fiberglass construction with textured surface that responds well to brushes and other effects. Ported in rear.

Black and White Finish

BOOM BOX CAJON PCJ633BB

This Fiberglass cajon with fixed snares features a built in bass port that magnifies subsonic frequencies for great bass projection.

#633 Artisan Red Mahogany

PRIMERO BOX CAJON* PBC507

Get started with Primero. Constructed from Asiatic Pine with snares, this model has the right pitch and price.

#507 Gypsy Brown finish

BOOM BOX CAJON PCJ633BB630

This Fiberglass cajon with fixed snares features a built in bass port that magnifies subsonic frequencies for great bass projection.

#630 Red Sparkle

JINGLE CAJON PCJ629

This Fiberglass cajon built in Platinela and tambourine jingles that can be engaged for incredible sound with fixed snares.

#629 Carubinga finish

AFTERBURNER CAJON* PBC511ABC

Made in the USA. The Afterburner cajon features dual rear-firing ports that resemble the exhaust on a classic hot rod and delivers the same low end rumble. The 100% Birch body has a premium grain natural finish.

Dual Rear-Firing Ports

SONIC BOOM FLAME THROWER CAJON* PBC1914FT

Made in the USA. Features a Flame Maple faceplate that adds a new voice to the Sonic Boom family. Two strategically placed bass ports are located at the top on the back to increase snare projection. Fiery Red and Natural Finish.

SONIC BOOM* PBC1914SB

Made in the USA. Massive low-end producer perfect for small acoustic settings or larger amplified venues. 100% Birch construction provides exceptional resonance that speaks clearly through the frontward facing bass port. This Box Rock!

SONIC BOOM BUZZ* PBC1914SB

Sister to the popular Sonic Boom, the Buzz adds fixed snares and a resonant Artisan Walnut front plate. This beautiful cajon really has the deep bass and punchy snare crack you need to emulate a drum set.

*Available exclusively in the USA

MACH 3 CAJON* PBC1914M3

Made in the USA. The Mach 3 features a 100% Birch body with three isolated playing zones that simulate snare, bass and tom sounds. The backwards tilted front plate provides a comfortable playing position.

MACH 2 CAJON* PBC511M2

Made in the USA. The Birch snare section of the faceplate creates a bright response while the Walnut bass section provides a punchy low end. An internal resonance plate prevents unwanted crosstalk between the sound chambers.

#511 Natural Finish

FUN BOX CAJON PFB300

Help your child develop proper playing mechanics while playing this smaller kid-friendly size cajon. Durable Fiberglass construction finished in bright yellow.

AWAKENING SERIES TONGUE DRUMS

Tongue drums derive their name from the tongue shaped areas where you strike the drum. The results are a cosmic blend of tones that are as much fun to hear as play. Pearl proudly introduces the Awakening Series of 6 new Tongue Drums, three 8 note and three 9 note drums tuned to pentatonic scales. Each drum features a 10" hardened steel shell with precise laser cut tongues for accurate and consistent tuning. Pearl Tongue drums can be played with your fingers or with a set of mallets included with each drum.

DJEMBES PERCUSSION

ANCIENT INSTRUMENTS FOR THE MODERN PERCUSSIONIST.

DJEMBES • Djembes are a traditional African instrument that offer a wide variety of sounds and are perfect for drum circles. The Professional Elite Series is available in Oak (12.5" diameter) and Fiberglass (12.5" and 14" diameter). All feature our Contour Crowns for comfortable playing and authentic Goat skin heads for deep lows and crisps highs.

PJBS350 DJEMBASS

DJEMBASS • If you want extreme low-end, and a head-turning alternative to a standard bass drum, look no further than to Pearl's DjembBass. Convert our most popular PJF350 Fiberglass Djembe into a compact kick drum with the DjembBass accessory pack. To reduce the attack and add greater "lows" we have included a cloth cap that stretches around the head. For greater low-end, slip the included neoprene disc inside which give you two sound options. Your pedal (not included) attaches via an I.S.S. type clamp to the Djembe's stand mounting plate.

FOLKLORIC & BRAZILIAN

TRADITIONAL LOOK, MODERN INNOVATION.

FOLKLORIC ELITE CONGAS

Pearl's line of Folkloric congas feature a traditional look with modern innovation that only Pearl can deliver. Each 28" tall Oak conga is designed for the "seated" player, but is pre-drilled for stand mounts if necessary. Thicker South American style natural skins makes the drums warm sounding, but a fiberglass gel coat on the interior seals the shell and adds the projection and volume desired by today's players. Four Polished Steel Reinforcing Bands are inset on the shell for a smooth touch, and the traditional hoops complete these stunning instruments in a Matte Crimson Sunrise finish. The 7 & 8.5" Oak Bongos have the same hardware and shell features of the congas. The thicker bongo skins add to the projection and "dry" tone reminiscent of that classic Cuban sound.

BATAS

Pearl Percussion Bata drums are available in Crimson Sunrise, the same beautiful finish featured on our Folkloric Elite congas and bongos. Additionally, the hardware is finished in Polished Steel and matches the hardware on our other tunable hand drums. These sacred ceremonial instruments have a thicker Enu (large) head for a deep, rich tone.

BRAZILIAN PERCUSSION

Pearl's line of Brazilian Percussion brings modern refinements and Pearl quality to the traditional Samba musician. Our Repinique features lightweight yet sturdy steel shells with etched heads, shoulder straps and low rims for incredible playing comfort. The lightweight wood shell Surdos allow for hours of comfortable play when worn over the shoulder with the provided strap. Available in 18"x22", 20"x18" and 22"x22" sizes (diameter x depth), Pearl's popular Surdos continue to be the industry standard. The Timbao is made from lightweight fiberglass, and is capable of the extremely high tension utilized in tradition Brazilian ensembles. The Rocar is equipped with brass and steel platinellas, and can be played as a single shaker, or separated for two-handed sonic options.

CONCERT PERCUSSION

ENGINEERED FOR THE PROFESSIONAL PERCUSSIONIST.

CONCERT PERCUSSION

Pearl is proud to offer Concert Percussion instruments that are attractively priced for school ensembles, yet engineered with the professional percussionist in mind. The symphonic tambourine is a perfect example. Its 17 pairs of specially aged, stamped brass jingles provide a dry, yet bright tone that brings added color to any musical situation. Its 10" headed

wood frame allows the player to effortlessly perform all tambourine techniques, and the tambourine's plush carrying case is included. The rattler is another vital component to any concert percussionists' equipment, and Pearl's is built with an extended handle for a comfortable grip and ease of playing. Holders for the rattler and castanets are also available.

PERCUSSION STANDS & BRACKETS

The PC3000TW stand holds full size professional congas as securely as most stands double its weight and mass. The PC300W is scaled down to support our lighter Primero Conga line-up. Both stands set-up in seconds because there are no wingnuts needed to mount your congas. The PC2500 Ultralite Conga stand, is lightweight yet sturdy and stable. Index markings on all adjustable parts make for consistent lightning fast set-ups.

TRAP TABLE & RACK

Our popular PTT1824 Trap Table can be easily converted into a two-level folding rack without drilling or modifications by simply adding the PTR1824 Add-On Rack. The PTR1824 installs in seconds using clamps and folds flush with the table for easy pack-up. A unique clamping system allows the included (4) straight and (4) angled 3/8" knurled posts to clamp anywhere onto horizontal or vertical areas of the rack. Also included is a retractable three-legged stabilizer bar for optimum stability. The easy-to-attach PTRUNV Universal Trap Table Rack mounts on virtually any trap table and features six 3/8" rods and receptors for various percussion mounting possibilities.

PERCUSSION CASES

Features include: ergonomic carrying straps, rubber protective bottoms, top-mounted carrying handles, tuning wrench pouches, & heavy duty double zippers.
